

ORDINANCE NO. 1998(1)

AN ORDINANCE OF HOPKINS COUNTY, KENTUCKY, AMENDING
ORDINANCE 1997(7) AS THE SAME PERTAINS TO THE POLICY FOR THE SALE
AND/OR INSTALLATION OF DRAINAGE TILE

WHEREAS, the governing body of Hopkins County, the Hopkins County Fiscal Court, has determined that the Administrative Code, as the same pertains to the policy for the sale and/or installation of drainage tile, should be amended.

NOW THEREFORE, BE IT ORDAINED by the Fiscal Court of Hopkins County that the following amendment shall be adopted concerning the installation of replacement drainage tile on county right-of-ways of the Hopkins County roads as follows:

Enumerated paragraph number 5 of Ordinance 1997(7) should be amended to provide as follows:

5. Should replacement drainage tile be required to be replaced in entrances to driveways located on county right-of-ways or in other locations on county right-of-ways, Hopkins County may furnish said tile and remove any old or damaged tile on the county right-of-way, and replace said tile. Provided however, that any such replacement must be done on a case by case basis and in each and every case an engineer or road supervisor or assistant road supervisor shall verify for the County that the tile must be replaced because it is impeding the county's drainage ditches or facilities or damaging county property, or is necessary for proper drainage on county property. On each and every such case, the engineer or road supervisor or assistant road supervisor may verify that the tile must be replaced because it is impeding the county's drainage ditches or facilities or damaging county property, or is necessary for proper drainage on county property, and

may approve such installation and replacement tile. Provided however, that on each and every case in which the engineer, road supervisor, or assistant road supervisor approves the installation of replacement tile, at the next Fiscal Court meeting immediately following the installation of replacement tile, the engineer, road supervisor, or assistant road supervisor must file a written statement with the Fiscal Court stating that such replacement tile was installed or removed and that this replacement was necessary because the old tile was impeding the county's drainage ditches or facilities or damaging county property, or was necessary for proper drainage on county property. Any old or damaged tile removed as herein set forth shall be disposed of in any legal manner (either by being sold at a fair market price, being sold at auction, or by being destroyed and disposed of in an appropriate landfill).

The Ordinance 1997(7) shall be amended or altered in no other respect.

This Ordinance shall become effective upon passage.

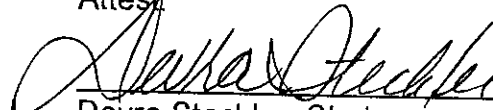

UPON MOTION by Magistrate Pharris seconded by Magistrate Barton

first reading was held and approved on the 5th day of February, 1998.

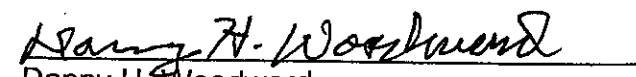

Danny H. Woodward
Hopkins County Judge/Executive
